Workshop Description:

Description

The Career Launch event has now been organised for six editions, yet its outreach and impact remain below expectations. In this workshop, we will evaluate the project and identify ways to improve its structure, visibility, and attractiveness to ELSA's membership.

Outcome

The participants propose concrete improvements to strengthen the Career Launch event.

Preparation

Read up and get an understanding of the structure and the purpose of the Career Launch event.

The European Law Students' Association

Career Launch - What is it?

Career Launch:

Implemented in 2020 by the International Board of ELSA

Capitalising on the digitalisation during the COVID-19 pandemic

Consisted of two parts:

- Four days of informational workshops
- A live virtual job fair with different partners

During previous term: integration of the ELSA Skills Academy

Now the question is how the event will look in the future...

How can we make the event more attractive?

- Move from digital to hybrid or physical format
- Stronger focus on soft skill development over informational workshops
- Mock interviews or other directly applicable skills
- Other potential developments?

Group Work

Go together in groups and...

Discuss how can Career Launch be improved

- What do you think could make a primarily digital event more attractive?
- Should Career Launch potentially change formats?
- Should the virtual job fair element of the event stay?

Presentation of group work

**Of course... ELSA International also
has ideas**

Questions?
