The BEE Toolkit

External Relations Manual

The [External Relations Manual](#) is officially out! It is intended to help you in your pursuit to find steady and mutually beneficial partnerships. Obtaining and maintaining partnerships is a constant cycle of focused efforts and communication, and there is no set answer for how to do it successfully. However, in this Manual you will find some steady steps and tips & tricks for the process.

Expansion Manual

Our [first ever Expansion Manual](#) is also out! It is a document which elaborates on how to expand on the local and national level in our association. With this ELSA offers you additional support expanding your National ELSA Network, or becoming an Observer or Member of our Association.

What is your feedback on these two new BEE tools? Approach us at coordinator.beetoolkit@elsa.org and share your opinion or any questions you might!
