ELSA
Delegations

The European Law Students' Association

In order to make the selection process for ELSA Delegations easier to understand for the Network, the ELSA Delegations Team came up with a new ranking system embodying the selection criteria for ELSA Delegations. This new comprehensive system is based on the evaluation of four specific factors and allows to immediately identify the strengths and weaknesses of the Applicants.

According to the new selection criteria, a grade shall be granted for each criterion on a scale of 1 to 10, following the grid to be found below. The latter allows ELSA International to evaluate and rank applications for ELSA Delegations in the most effective manner. For each application, ELSA International grants a final grade. Each final grade is constituted by four numbers, one for each respective criterion. The criteria are: *CV, a motivation letter, ELSA knowledge and contribution to ELSA's activities; and appreciation of ELSA International*. It is to be noted that if the application does not meet the formal criteria, namely: *being submitted on time, all the required fields are not filled in, application is not in English*, the application is cancelled prior to any further assessment.

Example:

- *An Applicant with an excellent CV, an outstanding quality of motivation letter, no ELSA Knowledge and a favourable appreciation of ELSA International could be ranked as follows: 8-9-2-7;*
- *An Applicant with an excellent CV, a low quality of motivation letter, no ELSA Knowledge and negative appreciation of ELSA International could be ranked as follows: 8-3-2-3.*
- *An Applicant with a poor CV, a good motivation letter, an excellent ELSA Knowledge and a positive appreciation of ELSA International could be ranked as follows: 4-7-9-7.*
