# INTRODUCTION

---

Dearest S&Cers,

The highlight of the month of November was indeed the 78th International Council Meeting Online.

After months of preparations, this amazing event took place online - successfully thanks to the whole Network who remained active till the end of the week. However, the most important and encouraging part was the participation of all the S&Cers who engaged during the workshops, coming up with new and fresh ideas, boosting this way our beloved area even further.

We are nearly half way our terms, and you might start feeling tired at this moment. I would like to remind you that, as long as you keep going, you'll keep getting better. I believe in you!

- *Your S&C Mama, Ilke*

# Summary of 78th International Council Meeting

During the very efficient (#SCefficiency) and super fun week, we took many important decisions and had the chance to know each other better. We proved once again that, even though online, S&C family is stronger than ever!

The International Council voted in favour of removing Responsibilities of the OCs, and Quality Standards from the ELSA Law Schools chapter in the Decision Book. They are now included in the ELSA Law Schools Hosting Agreement. Additionally, ELSA Webinars and ELSA Webinars Academy are now regulated in the Decision Book as separate chapters.

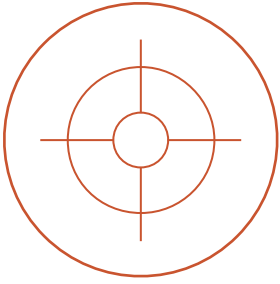

# Summary of 78th International Council Meeting

I was also responsible International Board member for ELSA Spirits during the ICM. The famous ELSA Spirit never ceases to amaze me how we can adapt ourselves to even the most challenging circumstances. The games we created for this Online ICM to engage with each other actually motivated to me to create the [ELSA Spirits Handbook](#). It is a compilation for all ice breakers, games and punishments of the history of ELSA. I really hope you will find it useful and it will help you to connect with your fellow officers!

Additionally, from now on I will organise monthly S&C socials to spend more time together, and of course have fun - since we are quite good at it!

Last but not least, you may now find the all presentations on the Officers Portal. Please note that you can also review the ICM Minutes as soon as published.

# Annual Human Rights Campaign

The 9th ELSA Day on the 25th of November marked the beginning of the Annual Human Rights Campaign on Artificial Intelligence and Human Rights.

We organised our [Annual Webinar with the Council of Europe on AI and Human Rights](#) with the invaluable participations of CoE expert Ms. Clementina Barbaro and philosopher Mr. Jean Lassegue.

Additionally, in the following weeks, we will launch the Survey asking both ELSA Network and society in general about their knowledge and experience related to AI and Human Rights.

## SAVE THE DATE\*

Most of the international institutions and organisations are organising hybrid sessions. Together with ELSA Delegations Team, we evaluated the situation to be able to open a Call for Delegations, even if only a limited amount of delegates can participate via an online platform.

Therefore, I'm happy to announce that the **ELSA Delegations December Call** for online and hybrid sessions will be opened on the **15th of December** - do not forget to mark your calendars!
