# What are National Traineeships Programme?

---

National Traineeships Programmes organise Traineeships in a country for the students and young lawyers of this country. The National Group is in charge of the well functioning of the programme. It is not coordinated by ELSA International.

## Example of countries with National Traineeships Programmes:

- ELSA Italy
- ELSA Czech Republic
- ELSA Portugal
- Etc...

# The relationship with ELSA Traineeships

---

It is good for both of them to exist because:

- Different offers
- Different target audience
- Easier for some students who don't have the money to travel
- More interesting for TNP's who oftenly wants Trainees who know the National Law.
- Reduce the costs of transportation, living, etc
- No administrative burden

# The relationship with ELSA Traineeships

---

It is bad for both of them to exist because:

- People might not want to apply for ELSA Traineeships anymore, both applicants or TNPs
  - The Traineeships have been firstly implements in the concept of an exchange and learn about new cultures, new environments
  - If something goes wrong, it is the responsibility of the NG and it can take with it the reputation of ELSA as a whole
- National Traineeship Programmes might kill ELSA Traineeships

# How to make them co-exist?

---

## WE NEED TO MAKE THEM CO-EXIST

- By creating guidelines to avoid an overlap of projects and assure the co-existence of both projects
- By listing the advantages and disadvantages of both projects
- By defining the target audiences, both for TNPs and applicants
